An aged negro appeared at the Court of Assize at Ottawa, a few days ago, as a witness in a case He is 101 years of age, and was formerly a slave in Upper Canada, before the abolition of slavery in the British possessions. He fought through the of the Radical party because they are acting American war in 1812 on the side of the British; was at the battles of Chippewa and Lundy's Lane, and was wounded at Sackett's Harbor. He is i full possession of all his faculties. He was born in New York State in 1766, and was the slave of U. E. loyalist, who brought him over to Canada. He was taken to Ottawa to prove the death of a

person in 1803, and another in 1814. Some days ago we had a telegraphic dispatch from Selma, Ala., announcing the removal, by order of Gen. Porz, of the Mayor and Aldermen of that city, and the appointment of others in their stead. A Selms paper says: "The new officers are well known citizens of Selma. With, we believe only one or two exceptions, they are ante-bellum residents of this place. The most of them are men of property, and all of them are identified with the interests of the city. We do not think the same number of Radicals of equal respectability

could be found in any other Southern city; and so far we have cause of public gratulation-accepting a change as inevitable." Alluding to the extensive swindling that has

THE COLORED VOTE.

WE HAVE received the following letter, which we publish, because it is accompanied by a cerificate from the Collector of Beaufort that its writer is a citizen of respectability and influence, and because it is the first direct communication to us from that class of voters whom its writer claims to represent:

HILTON HEAD, S. C., May 18th, 1867. To the Editor of the Daily News :

Sir: - I note your article on "Registration in your yesterday's issue, and am willing to strike hands on it, but must observe: It comports but ill with your contemptuous mention of the Union Convention. If in good faith and from conviction you accept the platform of equal rights for all, irrespective of race, color, or previous condition; why these sneers and expressions of hate towards the Radicals, the enlightened of said

These discrepancies on your part, and the undisguised bitterness of the Mercury, El hoc genus omne, are forcing us into the arms, (or nets, rather) of doubtful characters from the North, who ow infest the South and seek to swallow up everything, white or black in their insatiate maws-they sit upon the fence, and having no principle, save that of making money, are ready to jump to one side or the other, according to the prospects of spou. If you are really in earnest, if ou can only convince us (and we are very suspicious) that you accept the Petersburg Platform in good faith, we will gladly join our efforts with ours to enforce it on the North, (some will bitterly say "commend the poisoned chalice to their own lips;" but we will say, sauce, good for the Southern goose, must be equally good influence and ability as the means of explaining for the Northern gander), and to procure and reconciling to each other those classes in tical issues; for of all horrors and abominations, the most horrible and abominable to us, is that unatural reptile, the Northern copperhead. Let me not be misunderstood, I speak of local offices only; for the present

GEORGE CURTIS, President Ethiopian Union Republican Association, Hilton Head, and

Chariman Provisional Committee. Our first suggestion to our correspondent rould be to change the name of the asseciation over which he presides. "The Ethiopian Union Republican Association" is entirely too suggestive of "Ethiopian Serenaders," who, we all know, are white men with blackened faces, whose trade it is for money to imitate negro customs and exaggerate negro peculiarities. Several bands of such performers have recently made their appearance on the political stage, beating the Radical banjo, and singing-

What can read, write and cipher."

It is high time, we think, for the colored roters of this State to begin to think for themselves, and to repudiate the sympathy which is as dirty and slippery as the lamp-black and oil with which the performers Radicalize and

Africanize themselves. It is, therefore, because the certificate which accompanies this letter justifies us in believing that the writer really represents himself and his people that we proceed to answer the

questions he puts us. We must say, however, by way of preface that the writer is mistaken in supposing that the "Mercury et hoc omne genus" manifest any 'undisguised bitterness" as to the new privileges of the freedmen. The Mercury, and the very large and [respectable body of citizens whom it respresents, think universal suffrage a very dangerous experiment, and do not recognize the constitutionality of the law by which it was enacted. But the Mercury, and every other representative press in this State, have recognized the fact that universal suffrage is now established, and that it is the part of justice and wisdom to adapt ourselves to this new condition, and to work together with the

colored voters for the good of the whole State. And when all this merely political agitation begins to subside and the Radical party having used the colored vote for its own purpose, leaves the negro to the labor of his daily life. the President of the Ethiopean Union Associa tion will find that his education and intelligence will separate him much further from the mass of ignorant and unintelligent negroes than it does from his white fellow-citizens.

The principle of the editorial to which he refers and upon which he professes his readiness "to strike hands" is simply this: That to all citizens, the honors, the privileges, the duties of citizenship, are alike common, and that the question whether a man shall discharge a duty, enjoy a privilege, or wear an honor, is not whether he is black or white, but whether he is a citizen and fit for the position Upon that principle we are willing to stand, but if a citizen cannot be excluded from his privilege because he is black, he cannot claim an office because he is black, and the man who appeals to the citizens of this State to vote for man because he is black is violating this principle just as much as one who calls upon his fellow-citizens to vote against a man because he is black. In other words, hereafter in all political questions the element of race and color is to be entirely disregarded.

While we hold this in common with every thinking man in the South, "in good faith and from conviction," we protest against the course in direct contradiction to it. They are not appealing to the voters of the South as citizens, they are appealing to them as blacks. They are deliberately exciting prejudices which, i excited, must and will develope into angry and hitter passion. They call upon the black vote of the State to join them against the white vote, and that upon the ground of their former slavery. Let us take an illustration from the section of country in which the writer of this letter himself lives.

In St. Helena Parish before the war we will suppose there were five thousand slaves to two hundred owners. For the establishment of this slavery the owners were in no wise responsible, and their energies and capital were expended to develop by this labor the lands which they owned. In doing this, we think all intelligent colored men will admit that, as a general rule, their conduct was humane and that the condition of their laborers as laborers was superior to any other population in the world doing the same work. Now, the ownership in these slaves has been abolished, the exclusive political power belonging to the former owners has been abrogated. The five thousand slaves are to-day Banner says that managers of the railroads cen- as free as their former masters. They are enitled to vote on all questions and for all office ment, by which a handful of corn may be easily and to hold these latter if elected thereto. No-

LARGEST CIRCULATION .- The DAILY henestly rewarded, whether their rights of person and property are respected, whether the expenditure among them of the eapital which they have not got, but which their former owners have, is to their advantage, whether they or their former owners understand best the legislation which will protect all interests-does any one doubt the result? But are they left to themselves? Is not the object of the Ethiopian Association, of the Union Convention, of the inflammatory itinerant lecturers, who are travelling the contry, to interfere directly with their decision, to induce them to trust not to themselves nor to their white fellow-citizens, but to the Radical party? The Radical party to-day has no platform, nor does it avow any principle which is necessary to the existence or protection of the colored vote of the State.

The questions which do interest both black and white in this State, are questions purely of a domestic character. Our State taxation or system of general education, the organization of our Courts, the relief of the suffering, which extends everywhere. We object, in the interest of black and white alike, to any political agitation which turns our attention from these subjects to discussions which are entirely unprofitable, or if profitable are profitable alone to the thousand and one political adventurers who are striving to serve personal end under the pretence of puplic spirit. Whenever the writer of this letter, and men

who, like him, have influence among their people, find any unwillingness among their white fellow-citizens to do justice in these matters, they may distrust them, but not until

We belong to those who believe that the great bulk of the colored vote of this State, unless intentionally and mischievously misled, will vote cordially with the white citizens. Their relations are too close, and their interests too identical to be separated except by persistent and unresisted misrepresentation. But there will naturally be a small class of intelligent and ambitious freedmen who will desire to assert themselves and their influence, and through whom agitators will endeavor to act. To these we feel no unkindness. We do not dispute their superiority to most of their race, nor do we resent their ambition. We imagine that our correspondent is one of them. It is worth while for such men to think how far an antagonism to the white man can serve any useful purpose. They may represent their race in color, but they will find that their very superiority will be a cause of jealousy and a source of weakness. A little practical experience, and they will find that they must stake their fortunes with those whom they wish to join, not with those whom they wish to leave, and that they have before them a most useful and honorable career, if they will use their Southern office for Southern men, the only prac- the State whom bad men are trying to separate for their own selfish purposes.

CHASTELLAR'S

WHITE LIQUID

ENAMEL,

Fer Improving and Bautifying the Complexion,
The most valuable and perfect preparation in use, for giving the skin a beautiful pearl-like tint, that is only found in youth. It quickly removes Tan, Frecklee, Pimples, Blotches, Moth Pttches, Saliowness. Eruptions, and all impurities of the skin, kindly healing the same leaving the skin white and clear as aisbaster. Its use cannot be detected by the closest scrutiny, and being a vegetable preparation is perfectly harmless. It is the only article of the kind used by the French, and is considered by the Parisian as indispensable to a perfect toilet. Upwards of 30,000 bottles were sold during the past year, a sufficient guarantee of its efficacy. Price only 75 cents. Sent by mail, post-paid, on receipt of an order, by

NEW YORK,
AGENTS FOR THE UNITED STATES.

C IN, AS A REMEDIAL AGENT, HAS BEEN IN FAVOR with the profession for a very long period, but
owing to the difficulty of obtaining a pure article, it has
fallen into disuse in many sections of the country, much
to the regret of medical men, who consider it almost a
specific in very many diseases. For all cases of Gravel,
pure Gin, if administered under professional guidance,
will certainly work a cure; and if taken as a preventive,
acting, as it does, on the sensitive membranes, it cleanses
the parts so as to remove all possible sediment. Administered in the same way, it will prevent the formation of
Calculi, and do away with those terrible operations,
therefore, so necessary for their permanent removal.
Gin is of incalculable benefit to females in those diseases
so peculiar to the sex, and from its tonic, as well as its
anodyne properties, it is frequently superior to iron,
bark, or even the electrical remedies. In cases of a positiva tendoncy to Phthian, or Consumption, Gin, in proper
quantities, by supplying or filling up the constant dying
out of the natural fire of the system, will often entirely
ward off that awful disease, which carries off one-eighth
of the population of the United States annually. Pure
Gin has this peculiar advantage over other diffusible
stimuli, that it exhibates without creating any thirst of
an unhealthy character, it soothes while it also excites, an unhealthy character, it soothes while it also excites, and is a powerful nervine as well as an active tonic.
